

Major U.S. Brake Inspector® Distributorship Arrangement

For Immediate Release – January 8, 2008

Toronto, Ontario – Spectra Inc. (SSA: TSX Venture) As Chairman of the Board of Spectra Products Inc, the wholly owned subsidiary of Spectra Inc., Glen Campbell would like to announce the signing of a major US distribution agreement with Advanced Brake Products, LLC (“Advanced”) for the company’s Brake Inspector® line of products.

This strategic alliance has the potential to be a multi-year, multi-million dollar arrangement. Under the agreement, Advanced will have the exclusive right to distribute the Brake Inspector® line of products throughout the U.S. and will be responsible for all marketing and distribution costs related thereto. In the first year of the agreement, Advanced has committed to purchase Brake Inspector® systems with a minimum sales value of approximately \$1,300,000. In future years, to retain the exclusive right to distribute the product, Advanced must purchase minimum sales values determined by a multiple of the numbers of Brake Inspector® units sold by Spectra Products in Canada.

Advanced Brake Products, LLC, based in West Bloomfield, Michigan is a group of sales professionals specializing in safety and performance enhancing products for the trucking industry with representation across the United States. “With the increased awareness of truck safety, and in particular air brakes, and with our access to the largest fleets in the country, we expect unparalleled acceptance of this new and innovative product” commented Michael Bishop, National Sales Director of Advanced Brake Products.

“We are pleased to have Advanced Brake Products distributing the Brake Inspector® product line in the US market”, stated Glen Campbell, Chairman of Spectra Products. “Their comprehensive industry knowledge and extensive fleet contacts should generate significant sales not only during 2008 but in the years thereafter.”

Spectra Inc., through its wholly owned subsidiary, Spectra Products Inc., is the Toronto-based North American designer, manufacturer and distributor of Brake Safe®, the visual brake stroke indicating system and Brake Inspector®, the company’s electronic in-cab air brake diagnostic system and the Termin-8R® line of anti-corrosion and extreme pressure lubricants. These products are gaining increasing recognition and acceptance as demands for enhanced brake safety increase among regulatory authorities and the motoring public.

Except for the historical information contained herein, this news release contains forward looking statements that involve risks and uncertainties, including the impact of competitive products and pricing and general economic conditions as they affect the Company’s customers. Actual results and developments may therefore differ materially from those described in this release.
