

Sales Growth and New Distributorship Arrangements

For Immediate Release – December 17, 2007

Toronto, Ontario – Spectra Inc. (SSA: TSX Venture) As Chairman of the Board of Spectra Products Inc, the wholly owned subsidiary of Spectra Inc., Glen Campbell would like to report that following on the excellent sales for the month of October 2007, the company again achieved sales of in excess of \$100,000 in November.

Much of the sales growth now being seen is the result of efforts of our sales team in setting up distribution lines for the new digital version of our Brake Inspector line of products.

To date we have now entered into distributorship arrangements with 8 distributors covering 33 locations throughout Ontario and Quebec. We are currently also negotiating with distributors in Western Canada and the United States to carry our line of products.

While December is traditionally a quiet month for sales with many customers not wanting to take on new inventory before their year ends, we are expecting strong sales in January.

Spectra Inc., through its wholly owned subsidiary, Spectra Products Inc., is the Toronto-based North American designer, manufacturer and distributor of Brake Safe[®], the visual brake stroke indicating system and Brake Inspector[®], the company's electronic in-cab air brake diagnostic system and the Termin-8R[®] line of anti-corrosion and extreme pressure lubricants. These products are gaining increasing recognition and acceptance as demands for enhanced brake safety increase among regulatory authorities and the motoring public.

Except for the historical information contained herein, this news release contains forward looking statements that involve risks and uncertainties, including the impact of competitive products and pricing and general economic conditions as they affect the Company's customers. Actual results and developments may therefore differ materially from those described in this release.
